Due to the timing of the payment of production proceeds to the Trust, quarterly distributions generally include royalties attributable to sales of oil, natural gas liquids and natural gas for three months, including the first two months of the quarter just ended and the last month of the prior quarter.

The Trust owns royalty interests in certain oil and natural gas properties in the Colony Granite Wash play in Washita County, Oklahoma. The Trust is entitled to receive proceeds from the sale of production attributable to the royalty interests. As described in the Trust's filings previously with the Securities and Exchange Commission (the "SEC") and information about the Trust that is available on the website of the OTC Markets Group Inc. ("OTC Markets"), the amount of Trust revenues and the quarterly distributions to Trust unitholders will fluctuate from quarter to quarter, depending on the sales volume of oil, natural gas liquids and natural gas attributable to the Trust's royalty interests and the prices received for such sales and the amount of the Trust's administrative expenses, among other factors.

For additional information regarding the Trust and its results of operations and financial condition, please refer to the Trust's previous SEC filings through the quarterly period ended September 30, 2024 and the previous OTC filings beginning with the annual period ended December 31, 2024.
